by fence (Tree that hit neighbors car)																
(1) Lg. Maple - by building	X	X	R	X	X										\$	2,500.00
North end by dumpster																

## NOTES

### What to expect:

Work to your trees usually requires the use of large equipment. Damage to your lawn in the form of tire tracking (ruts) usually appear. We try to keep any damage to a minimum through proper timing of work in relationship to weather conditions and by using other techniques such as boarding in or working from the road. However careful we are, keep in mind there are usually some sort of tracks.

- Divots in lawn due to wood dropping during removal or pruning are to be expected.
- Saw dust in the air or to parked cars, pools, and roofs and anything in area can be expected.
- Wood being left on site will be left in misc. lengths which means anything from 1' to 12' unless other arrangements are made.
- When stumps are ground the chips are left on site as they fall unless cleanup of stumps is contracted.
- Wood chips from your job are available to you at no cost and can be dumped at your site if accessible with our truck.
- No Guarantee on seeding of stumps.
