

May 12, 2026

For the 26/27 school year, I recommend the following price increases:

\$4 BES and \$4.15 BSS.

This is a \$.15 cent increase for both buildings. Currently, prices are \$3.85 at BES and \$4 at BSS. I have completed the Paid Lunch Equity tool from ODE and have attached it for your reference. The tool shows that the lowest price charged to students should be \$4 for the upcoming school year.

Breakfast will continue to be free for all students.

Additionally, I have attached the adult lunch meal calculator. It shows that the minimum that we should be charging for adult meals is \$5, which is what we are currently charging. I don't think we need to increase adult prices for the next school year.

Here are the recommended prices for the 26-27 school year for board approval:

- \$4 BES full price lunch
- \$4.15 BSS full price lunch
- \$2.50 student extra entree

- \$5 adult lunch without milk
- \$3.50 adult entree only
- \$3 adult breakfast

- \$.50 milk
